

Contacting Your A

The list of academic advisors following this information is for student convenience in making contact with advisors. To have access to the registration system via the Web or with staff assistance, each student should first seek out their academic advisor. OC students are paired with an academic advisor according to each student's program of study or major.

Students who have stated an intended major are assigned to the chairperson for the department of their major. In cases of large departments, students may be assigned to faculty members within the appropriate department. Advisors have access to all the information and materials that their advisee students will need to complete the registration process for any of the semesters scheduled in this bulletin.

ur Academic Advisor

Students who are taking general academics or basics to transfer and have not stated a specific major are paired with advisors who have been trained to assist students in making choices for appropriate courses in the Associate of Arts, Associate of Arts in General Studies or Associate of Science. An OC counselor will advise any student whose major is undecided.

Students already enrolled at OC will be assigned to on-campus advisors. Lists of advisors and students assigned to them will be available prior to registration dates. Students should contact the assigned advisor to schedule a time for advising. Once advising is complete the student may register via the Web or with staff assistance up until the published termination of open registration for the semester. For more information, call 335-6433.
