Microeconomics 2302

Introduction

Microeconomics is the study of specific economic units. At this level of analysis, the economist looks at the details of an economic unit, or a very small segment of the economy, under a figurative microscope. In microeconomics, we talk of an individual industry, firm or household. We measure the price of a specific product, the number of workers employed by a single firm, the revenue or income of a particular firm or household, or the expenditures of a specific firm. In microeconomics, we examine the sand, rocks, and shells, not the beach.

Book: "Foundations of Economics" 5th Edition. Robin Bade and Michael Parkin

Blackboard

The course will be administered through blackboard. That is all discussion questions and exams will be on blackboard. If you are having difficulties logging in to blackboard then call 335-6673 for help. THE PRIMARY MEANS OF COMMUNICATION IN THIS CLASS IS EMAIL. CHECK YOUR EMAIL EVERYDAY.

Outline

July

- | | |
|--------|--|
| 11 -15 | UNIT 1: The Basics
