Scans

SCANS 1, 2, 5, 8, 9, 10, 11

Course Objectives

Course objectives utilize the framework of Differentiated Entry Level Competencies. On completion of this course, students should be able to:

Provider of Care:

1. Analyze health care deviations in the patient experiencing complex alterations in multisystem functioning.
2. Correlate the physiological effects of special incidents and the client's ability to recuperate from complex health needs involving multiple body systems.
3. Integrate elements of prehospital emergency care for mass casualty incidents with patients experiencing complex health needs involving multiple body systems.
4. Utilize decision making skills, research-based findings, psychosocial, and cultural knowledge in planning and communicating care for patients with complex health needs involving multiple body systems.
5. Integrate knowledge of cognitive, psychomotor and affective skills essential for providing prehospital emergency care to patients with complex health needs involving multiple body systems.
6. Appraise the legal and professional implications that relate to the care of patients with complex health care needs involving multiple body systems.
7. Analyze physiological actions, side effects, and rationale, of pharmacological agents utilized in the care of patients with complex health needs involving multiple body systems.

Coordinator of Care:

8. Compose teaching relevant to health promotion/disease prevention for patients and their families to facilitate adaptation to complex health needs involving multiple body systems.
9. Examine economic and political issues impacting care of patients with complex health needs involving multiple body systems.
10. Identify a variety of community resources that assist patients with complex health needs involving multiple body systems to achieve an optimal level of health or to prepare terminal clients for death.

Member of a Profession:

11. Examine professional attributes of caring that assist the patient to adapt to complex health alterations within the critical care environment.
12. Justify situations which would necessitate advocacy for the patient within the critical care environment.

Learning Outcomes: Utilize critical thinking skills and a systematic problem-solving process as a framework for providing care for patients with complex health care needs involving multiple body systems in emergency and critical care settings; and analyze the roles of the professional paramedic in the provision of care for patients and families.

Grading Policy

1. The student will be expected to perform as stated in the objectives on the written exams

and in classroom activities.

2. A course grade of 70 or better is required to pass EMSP 2438. No assignments are optional. In order to receive a passing grade in EMSP 2438. Three National Registry Skills must be successfully completed with a grade of pass in each skill.
3. Grades will be calculated as follows and averaged for the final course grade:

Homework	15%
NIMS ICS classes	10%
Skills Lab	10%
Unit I Exam	20%
Unit 2 Exam	20%
Final exam	25%

A course final grade below 70, "C", does not meet criteria for progression/graduation. Students must meet all course requirements, or a grade of D or F will be assigned according to the above scale. Final course grades below 70.0 will not be rounded up.

1. Unit and final exams will be constructed from a random sample of the material studied in each unit. These questions will mostly be done in the form of multiple choice questions. However, there may be some short essay questions. Drug calculation questions may also be on any major exam. Consult the course schedule for exam dates.
 2. All exams missed due to absence must be made up before the next scheduled class meeting. If an exam is not made up, the student will receive a "0" for that exam and the grades will be averaged accordingly. **This policy is not negotiable.** The student may expect an alternate method of testing for the make up exam. NOTE: **Students will be allowed make up exams only if they have notified the instructor prior to the scheduled time of the exam.**
 3. The final exam will be a comprehensive exam **THERE ARE NO MAKEUPS ON THE FINAL.**
 4. Home work assignments must be turned in / completed on or before the due date no late assignments will be accepted unless arrangements have been made with the instructor prior to their deadline.
 5. Lab Participation / preparation grades are subjective and will be determined by the Skills Instructors.
