### **About Your Instructor**

This is my third year at Odessa College as a Professor. The classes I teach include Macroeconomics, Microeconomics, and Federal Government. I have taught economics at the high school level at Midland Lee, Midland High, and Odessa High. I have also worked at the Federal Reserve Bank in Dallas as an Economic Education Specialist.

I graduated from Texas A&M with a B.S. in Economics and a minor in Finance. I have a M.S. in Economics from Baylor University, and an M.A. in Education from UTPB.

I am interested in the history of money and banking. I collect American currency with a focus on Federal Reserve Notes and Silver Certificates. My other passion is baseball. Baseball season starts for me with my spring break trip to Arizona to watch the Texas Rangers play spring ball. Once the regular season begins, I go to games in Arlington multiple times.

### **Preferred Method of Communication:**

Email is the best method of reaching me. I can be contacted at [broberts@odessa.edu](mailto:broberts@odessa.edu) I respond to emails very quickly.

### **Expectations for Engagement for Instructor:**

As an instructor, I understand the importance of clear, timely communication with my students.

In order to maintain sufficient communication, I will

- provide my contact information at the beginning of the syllabus;
- respond to all messages within 24 hours if received Monday through Thursday, and within 48 hours if received Friday through Sunday; and,
- notify students of any extended times that I will be unavailable and provide them with alternative contact information (for me or for my supervisor) in case of during the time I am unavailable.

As an instructor, I understand that my students will work to the best of their abilities to fulfill the course requirements. In order to help them in this area, I will

- provide clear information about grading policies and assignment requirements in the course syllabus, and
- communicate any changes to assignments and/or to the course calendar to students as quickly as possible.

As an instructor, I understand that I need to provide regular, timely feedback to students about their performance in the course. To keep students informed about their progress, I will

- post grades for discussion postings within one week of the discussion thread closing.
- provide grades for major assignments within 2 weeks of the due date or at least 3 days before the next major assignment is due, whichever comes first.

- **↓ Information About the Course**

## Course Description

We will cover Macroeconomics, a study of the economy as a whole or its basic subdivisions or aggregates, such as government, household, and business sectors. Macroeconomics speaks of such economic measures as total output, total unemployment, total income, aggregate expenditures, and the general level of prices in analyzing various economic problems. Our goal

is to be able to develop a model to be used to interpret economic events, problems, and more importantly, solutions.

Macroeconomics is a one-semester course designed for high school seniors and college students. I designed this course with the overarching objective that students would build skills and knowledge that will enable them to understand both historical and current economic data and events. Successful completion of Macroeconomics will also provide students with the ability to participate more effectively in both the larger economy and our democracy.
