

Course Syllabus

Department: Surveying

Course : Srvy 1335, 8735 7135 Land Surveying Applications

Start Date 1/22/2013

End Date 5/17/2013

Modality: Face-to-face

Credits: 3

Prerequisites Successful completion of Survey 1301, 1309 and 1315

ICO's 1,2,3

Instructor: Paul A. Wilson

OC email: pwilson@odessa.edu

OC Phone (432) 335-6494

Course Description: Lecture/Lab

A continuation of the introductory triad, 1335 and 1341 are designed to give students a more in-depth understanding of the issues in Land Surveying. Emphasis will be placed on the basic mathematics of surveying and field procedures. Guided hands-on experience will be required for field drawings, use of levels and total stations, GPS data acquisition and processing, correct use of field books, planning and executing survey jobs, job safety, measurement techniques and other basic job skills.

Students who pass this course will have experience in the following types of surveys: Boundary, topographic, elevation certificates, control, boundary research including deed research. Students will be taught the differences and similarities between U.S. Rectangular Survey System and the Texas Survey System. Preparing for the NCEES FS exam is emphasized.

Academic Ethics: Students are expected to do their own work on assignments and take tests without outside assistance. If unethical behavior is detected, by Odessa College Policy, **all parties may either be denied credit for the project, or, at the instructor's discretion,** the student may be dropped from the course. A report will be made by the chairman for further action as deemed necessary by the department chair.
