Objective: Introduction to the history and practice of government at the state and local levels within the state of Texas. Topics include a study of general political theory, the Texas Constitution, structure of Texas government, citizen participation, elections and the general functions of county and municipal governments. I will lecture on the major points of the textbook chapters; the remaining materials in the chapters/Blackboard page are your responsibility to review and are testable. ICOs 1, 2, and 6.

Learning Outcomes: Upon successful completion of this course, students will:

1. Explain the origin and development of the Texas constitution.
2. Demonstrate an understanding of state and local political systems and their relationship with the federal government.
3. Describe separation of powers and checks and balances in both theory and practice in Texas.
4. Demonstrate knowledge of the legislative, executive, and judicial branches of Texas government.
5. Evaluate the role of public opinion, interest groups, and political parties in Texas.
6. Analyze the state and local election process.
7. Describe the rights and responsibilities of citizens
8. Analyze issues, policies, and political culture of Texas.

Attendance & Participation: This is an internet course therefore there will not be any classroom meetings. Participation in the discussion posts, and completion of all assignments is essential to achieving satisfactory progress; therefore it is the student's responsibility to keep up with regularly checking the course webpage/OC e-mail, and the assigned readings so that proper understanding of the material can occur. Please let me know if you require special accommodations.

Course Assistance: If you need technical assistance with the course you can contact the Student Success Center at 432-335-MORE (6673), visit this link: <http://www.odessa.edu/OCGlobal/blackboard/> or go to the "Tools" tab and click "Blackboard Help." If you have a question about the material you may contact me via e-mail, phone, or visit me in my office (E-mail is the best way to contact me and if I have not responded to you within 24 hours it means I did not receive your message so please resend it); You can also check the course chat room (Go to the "Tools" tab, then click "Collaboration," then "Chat Room") to see if I am, or another student is, in it and ask a question that way as well.

The Odessa College Student Success Coaches will help you stay focused and on track to complete your educational goals. If an instructor sees that you might need additional help or success coaching, he or she may submit a Retention Alert or a Starfish Alert. A Student Success Coach will contact you to work toward a solution.

As part of the Design for Completion initiative, your Odessa College Student Success Coach and faculty mentor will help you stay focused and on track to complete your educational goals.

If an instructor sees that you might need additional help or success coaching, he or she may submit a Retention Alert. Your Student Success Coach or faculty mentor will contact you to work toward a solution.

Chapter Info: The Chapter Info tab on the web course will provide the student summaries, questions to consider to help understand the material, and a link for additional resources for each chapter. This material is supplemental and it is highly advised that a student review the information and complete the readings to gain a better understanding of the material which in essence will make posting to the discussion board and exams easier.

Tests & Final Exam: There will be a total of five tests, with the fifth exam being your final exam. The tests will consist of 25 multiple choice questions valued at 4 points each. All exams will cover multiple chapters, and the Final is a Departmental (Comprehensive) version. It is imperative that students complete reading assignments in order to be better prepared for the exams. I do not drop any test grades. No study guides will be provided and the exams will be taken via Blackboard from any location with internet access. The exam will only be available for a specified time period and once you start the test you will have 1 hour to complete it. The exam can be taken up to three times, and the highest grade of the three attempts will be recorded. This is an open-book test and all test questions will come out of the textbook.

Extra Credit: In this age of technology it is imperative that college students master the art of internet research, therefore for every exam up to ten extra credit points can be earned if the student submits to me their opinion on a website they found pertinent to the material in the chapters covered for the exam. DO NOT use websites such as Wikipedia, Dictionary.com, etc.- Actually research a site related to the material. The assignment should include: 1) URL, 2) date accessed, 3) author and/or organization that maintain the site, and 4) 2-3 sentences (At least 50 words) on your opinion of the webpage. The extra credit is optional and due dates are posted; only one extra credit assignment can be turned in per exam- Submit via the appropriate Discussion Board thread.

Discussion Posts: The student will be responsible for posting ten original posts and twenty replies on the discussion board for this course (Posts and replies need to be properly cited). Original posts must be at least 250 words in length and should respond to the questions posed for each section. Additionally, all students are required to respond to two of their classmate's original posts- Each reply should be at least 100 words in length and cannot simply be "I agree" or "Great comment" statements- Using your reply twice will not count. When posting/replying, it is ok to disagree with someone's comments (that is what higher education is all about), although please be considerate and polite to your fellow classmates- Rude and derogatory comments will not be tolerated and will result in 0 points for that assignment.

Current Event News Article Review: The student will be responsible for submitting a review on their chosen current event news article pertinent to Texas Government (Current meaning no more than a month old)- Students should e-mail the instructor to have their current event news article approved (When you submit your article for approval I need the title and link). Current Event news articles are at a "First Come First Serve" basis meaning that no two students can complete their review on the same news article- The review will be at least 600 words. The review will be a brief summary but mainly your opinion of a current event news article chosen by the student, and should include possible solutions and consequences that can occur- It will be graded on topic, content, and grammar. You will post your Current Event News Article review (Properly cited) at the designated discussion post thread. Additionally, all students are required to respond to two of their classmate's posts- Each reply should be at least 100 words (Please see comments about replying in the "Discussion Posts" section). Late reviews will be penalized 5% of the final grade for every day that it is late. Below are some items of consideration to help your grade:

- 1) Was your review mostly a summary? If it was it should have been mostly your opinion.
- 2) Was your review at least 600 words in length?
- 3) Did you respond to at least two of your classmate's post? If so, was each at least 100 words?
- 4) Did you submit your assignment on time (Remember, 5% for every day it was late)?
- 5) Did you cite your assignment (Link/Title of Article)?
- 6) Did you proofread (How many typos, etc. did your assignment contain)?

7) Did you tie it into policy/government via including possible solutions and consequences?

Scholastic Dishonesty: Academic dishonesty will not be tolerated and will be handled in accordance to the OC Student Code of Conduct/Board Policy Manual. The Professor has the right to, at his discretion, add or alter any assignments, exams, and or methods. "Scholastic Dishonesty" shall include, but not be limited to:

- Plagiarism- defined as the appropriating, buying, receiving as a gift, or obtaining by any means another's work and the unacknowledged submission or incorporation of it in one's own written work
- Collusion- defined as the unauthorized collaboration with another person in completing assignments for fulfillment of course requirements
- Copying from another student's test, discussion post/reply, or any other assignment
- Copying your own reply and using it twice
- Using test materials not authorized by the person administering the test
- Collaborating with or seeking aid from another student during a test without permission from the instructor
- Knowingly using, buying, selling, stealing or soliciting, in whole or in part, the contents of an unadministered test
- The unauthorized transporting or removal, in whole or in part, of the contents of the unadministered test
- Substituting for another student, or permitting another student to substitute for one's self, to take a test
- Bribing another person to obtain an unadministered test or information about an unadministered test
