About Your Instructor

I'm retired from Odessa College and now reside in Anson, TX. I have been instructing, as a adjunct in the OSH Department, for 6 years. I have a AAS in Occupational Safety & Health Technology and a AAS in Law enforcement/Criminal Justice.

Preferred Method of Communication:

You can e-mail me or text me and I will try to respond in 24 hours but not more than 48 hours.

Expectations for Engagement for Instructor:

As an instructor, I understand the importance of clear, timely communication with my students. In order to maintain sufficient communication, I will

- provide my contact information at the beginning of the syllabus;
- respond to all messages within 24 hours if received Monday through Thursday, and within 48 hours if received Friday through Sunday; and,
- notify students of any extended times that I will be unavailable and provide them with alternative contact information (for me or for my supervisor) in case of during the time I am unavailable.

As an instructor, I understand that my students will work to the best of their abilities to fulfill the course requirements. In order to help them in this area, I will

- provide clear information about grading policies and assignment requirements in the course syllabus, and
- communicate any changes to assignments and/or to the course calendar to students as quickly as possible.

As an instructor, I understand that I need to provide regular, timely feedback to students about their performance in the course. To keep students informed about their progress, I will

- post grades for discussion postings within one week of the discussion thread closing.
- provide grades for major assignments within 2 weeks of the due date or at least 3 days before the next major assignment is due, whichever comes first.

Title: OSHT 2388 - Internship

Course Dates: August 24, 2014 – December 18, 2014

Course Credits: 3 credits

Prerequisites – None

Course Catalog Description:

Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/ industry. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. This is a workbased, learning experience which will enable the student to apply specialized occupational theory, skills, and concepts.

(ICOs 1, 2, 4, 5, 6) Prerequisite: None

Successful Online Learner: The following statement describes certain attributes of the most successful online learners as taken from an online education workshop attended by some members of our department “The successful online student can work fairly well independently, engaging the course materials with minimal intervention on the part of the instructor. The student who needs significantly more input from the

instructor and is not willing or able to engage in collaborative discussions and activities with peers is less likely to succeed online.”

Email Information for non-assignments: For general email questions or comments please use the following format:

Title your email with the following in the subject area: OSH 1405 – brief description of message.

Always include your name in body of the email message. I won't recognize you by your email address. **If your name is not in the message it will be returned to you unanswered.**

Importance of Email Rules: Why does OC require you to use the student email account instead of your regular email account? One reason is that messages from companies such as Yahoo, Google, AOL, and others commonly end up getting filtered out and placed in a junk folder. Also, using the OC email helps to protect the faculty from receiving email which contains viruses, Trojan horses, worms, etc. that may damage our computers. The IT department has access to both student and faculty email accounts and not to your regular email account, so they can aid students in the event of a problem. While this policy may seem inconvenient to you it is in place for your protection and ours.

I know the email rules may seem cumbersome to you at first, but keep in mind that I have multiple students in my various courses at any given time. If half of the students send me a message missing a name, title, course, or some other basic information, I would either have to look up the information or send an email asking for clarification. This would require many unnecessary hours of extra emailing, just to get basic information that should have been included in the header or subject area. I'm not sure about you, but I don't have an extra couple of hours in my day. It is for this reason that received email messages that do not follow the email rules will be returned to you unanswered with an explanation of what needs to be added.

Dropping the Course: If you consider dropping this course, please discuss your reasons with me prior to withdrawing from the course. Students who began their college experience as freshman in the Fall 2007 or later can only withdraw from 6 classes in their entire undergraduate college career.

Review of Online Exams: Unfortunately, there is no way for me to make the exams available to online students for review. Due to the way BlackBoard features operate, doing so would compromise the integrity of the tests in this course.
