

Criminal Background Check Requirements

In order to comply with the Texas Department of State Health Services and Texas Commission on Fire Protection, all first time and returning students with a break in enrollment of over 30 days are required to pass a background check as part of their practicum/clinical screening and/or application process if they have an existing criminal history. The Emergency Medical Services Professional and Fire Academy programs at Odessa College have the authority to conduct criminal background checks in partnership with our affiliates and/or state agencies. OC is requiring that students utilize our outside agency that performs the criminal background checks.

The agency we have selected and the only one approved by the department is the following:
